SENSITIVE

WITH LAMB AND CHICKEN LARGE BREED

Complete diet for large breed adult dogs from 1 year of age over 25 kg

Appetitt is a functional dog food enriched with active ingredients derived from Norwegian nature. Each product is specially adapted to the different nutritional needs of all breeds, so you can always find a food that is tailored exactly to your dog's requirements.

Appetitt Sensitive with Lamb and Chicken is formulated for sensitive large breed dogs and with protein from lamb and also with highly digestible hydrolysed protein from chicken.

With the exception of rice, the food is grain free and high in hydrolysed proteins. Thus, the food is low in ingredients that can lead to intolerance and allergies. Antarctic krill supports your dog's skin, coat and joints with the essential omega-3 fatty acids, EPA and DHA in the form of phospholipids. Contains natural glucosamine and chondroitin from fish and chicken for joints and bones. Natural vitamin E and rosemary, for skin, coat, joints and your dog's overall health.

Fructo-oligosaccharides (FOS) from vegetable fibres and mannan-oligosaccharides (MOS) for your dog's gastrointestinal health. Beta-glucans from yeast for your dog's overall health.

Composition

Dried animal protein from lamb (23 %), rice, pea starch, hydrolysed animal protein from chicken (17 %), animal fat from chicken, potato starch, fish oil, dried beet pulp, lignocelluloses, fructo-oligosaccharides (FOS), mannanoligosaccharides (MOS), sodium chloride, beta-glucans from yeast, rosemary.

Feeding guide

Appetitt Sensitive with Lamb and Chicken Large Breed meets the requirements of large breed adult dogs from 1 year of age and with a normal level of activity.

The feeding guide gives the average amount of daily feed related to body weight. The portion may vary +/- 20 % depending on activity level. Your dog should always have access to fresh drinking water. Store in a dry and cool place.

Functional substances

Antioxidants: Vitamin E (α-tocopherol)	200 mg/kg
FOS (fructo-oligosaccharides)	0.2 %
MOS (mannan-oligosaccharides)	0.15 %
Beta-glucans	0.04 %

Protein quality

Percentage of total dietary protein supplied by animal and/or marine sources 85 % Hydrolysed protein 13 % Hydrolysed protein/Total protein 50 %

DOG'S WEIGHT (kg)	LOW ACTIVITY (g/day)	NORMAL ACTIVITY (g/day)
25	270	310
35	340	400
45	410	480
55	480	560
65	530	640
75	650	710
85	730	800
>100	>850	>900
