

SENSITIVE

CHICKEN MEDIUM BREED

Complete diet for medium size breed adult dogs from 1 year of age between 10 and 25 kg

Appetitt is a functional dog food enriched with active ingredients derived from Norwegian nature. Each product is specially adapted to the different nutritional needs of all breeds, so you can always find a food that is tailored exactly to your dog's requirements.

Appetitt Sensitive Chicken Medium Breed is adapted for sensitive medium dogs and contains highly digestible hydrolysed protein from chicken. This is a single protein dog food and does not contain krill.

With the exception of rice, the food is grain free and high in hydrolysed proteins. Thus, the food is low in ingredients that can lead to intolerance and allergies. Contains natural glucosamine and chondroitin from chicken for joints and bones. Natural vitamin E and rosemary, for skin, coat, joints and overall health.

Fructo-oligosaccharides (FOS) from vegetable fibres and mannan-oligosaccharides (MOS) for your dog's gastrointestinal health. Beta-glucans from yeast for overall health.
