

APPETITT FREEZE-DRIED RUMEN

Dog food supplement

Freeze-dried rumen from Norwegian cattle has very good palatability and a high calorie content.

Ideal as a food supplement for dogs maintaining a high activity level, such as during training, hunting and running.

Always remember to add water when feeding freeze-dried rumen.

ENERGY CONTENT

Protein	34 %
Crude fat	57 %
Crude ash	4 %
Moisture	3 %

Composition

100 % freeze-dried rumen from Norwegian cattle.

Feeding guidelines

For every 100 grams of freeze-dried rumen, 5 dl of lukewarm water should be added. Allow the food to swell for 20 minutes before giving it to the dog. Freeze-dried rumen is not a complete dog food and should not exceed 50 % of your dog's daily ration (based on weight) over time. Remember that your dog should always have access to fresh drinking water.

Storage:

Store in a cool, dry place.

Net weight:

500 g.

Best before and batch number:

Stamped on the bag.

The packaging is sorted as plastic waste.
