# **ENERGY**

Complete diet for active adult dogs

Appetitt is a functional dog food enriched with active ingredients derived from Norwegian nature. Each product is specially adapted to the different nutritional needs of all breeds, so you can always find a food that is tailored exactly to your dog's requirements.

Appetitt Energy is formulated for highly active adult dogs. The feed has a high content of protein and fat of animal and marine origin, with high digestibility and with a high energy content. Combined with carnitine, the high fat content stimulates increased burning of fatty acids.

With the exception of rice, the food is grain free and high in hydrolysed proteins. Thus, the food is low in ingredients that can lead to intolerance and allergies. With natural antioxidants such as vitamin E and rosemary and with natural glucosamine and chondroitin from salmon and chicken for joint and bone health. Antarctic krill supports your dog's skin, coat and joints with the essential omega-3 fatty acids, EPA and DHA in the form of phospholipids. Fructo-oligosaccharides (FOS) and mannanoligosaccharides (MOS) for digestion and betaglucans from yeast for the overall health of your dog.

### Composition

Dried animal protein from chicken, animal fat from chicken, rice, hydrolysed animal protein from chicken (12%), potato starch, pea starch, dried Antarctic krill (Euphausia superba), hydrolysed marine protein from salmon (3%), dried marine protein from fish, lignocelluloses, dried beet pulp, fish oil, calcium carbonate, monocalcium phosphate, potassium carbonate, sodium chloride, fructo-oligosaccharides (FOS), mannan-oligosaccharides (MOS), beta-glucans from yeast, rosemary.

## Feeding guide

High energy content makes Appetitt Energy suitable for dogs with a high level of activity and is also recommended for dogs that need to gain weight.

The feeding guide gives the average amount of daily feed related to body weight and age. The feed amount may vary +/- 20 % depending on each dog's individual requirements for maintaining optimal body weight. Your dog should always have access to fresh drinking water. Store in a dry and cool place.

#### **Functional substances**

Antioxidants: Vitamin E (α-tocopherol)	250 mg/kg
Vitamins: L-Carnitine	250 mg/kg
FOS (fructo-oligosaccharides)	0.2 %
MOS (mannan-oligosaccharides)	0.15 %
Beta-glucans	0.08 %

#### Protein quality

Percentage of total dietary protein supplied by animal and/or marine sources Hydrolysed protein 12 % Hydrolysed protein/Total protein 46 %

DOG'S WEIGHT (kg)	MODERATE ACTIVITY (1-3 HOURS PER DAY) (g/day)	HIGH ACTIVITY (3-6 HOURS PER DAY) (g/day)
10	150	180
15	180	270
20	240	310
25	310	380
30	350	440
35	390	490
40	430	530
45	470	570
50	500	610
55	530	660
60	580	730
70	670	850
80	750	930
90	840	1000
