

APPETITT ADULT FISH

Complete diet for adult cats

Appetitt is a functional cat food enriched with active ingredients derived from Norwegian nature. The various products in our wide assortment have been developed to meet different nutritional needs, so everyone can find a food that's perfectly adapted to their cat.

Appetitt Adult Fish has a large proportion of highly digestible protein from marine ingredients. The amounts of protein and essential amino acids are adapted for adult cats. With the exception of rice, the food is grain free and thus has a low content of ingredients that can contribute to development of food intolerances and allergies. Natural glucosamine and chondroitin from salmon for joints and bone health.

The food contains Antarctic krill, providing your cat with the vital omega-3 fatty acids, EPA and DHA in the form of phospholipids. Ideal ratio of omega-3/omega-6 fatty acids and vitamin E and rosemary for your cat's joints, skin, coat and overall health. Fructo-oligosaccharides (FOS) from beet fibre for your cat's gastrointestinal health and beta-glucans from yeast for your cat's overall health.

Appetitt Adult Fish is also suitable for neutered and sterilised (spayed) cats.

Composition

Dried animal protein from chicken, dried marine protein from fish (16%), pea starch, rice, potato starch, hydrolysed animal protein from chicken, hydrolysed marine protein from salmon, animal fat from chicken, dried krill (*Euphausia superba*), lignocellulose, dried beet pulp, calcium carbonate, fish oil, fructo-oligosaccharides (FOS), potassium carbonate, beta-glucans from yeast, yucca extract, rosemary.

Feeding guidelines

Appetitt Adult Fish can be served with free access according to your cat's appetite. Overweight cats, picky eaters, or cats with diminished appetite can often benefit from having their daily portion divided into 3-4 feedings per day.

The feeding guidelines provides a guide on how much Appetitt Adult Fish to feed your cat each day. Food requirements may vary depending on activity level, so keep an eye on your cat's physique and adjust the amount of food accordingly. Always remember to ensure free access to fresh water. The food should be stored in a cool, dry place.

Functional substances

Antioxidants: Vitamin E (α -tocopherol) 180 mg
 Amino acids: L-Taurine 1000 mg
 Acidifier: Orthophosphoric acid 175 mg
 Beta-glucans 0.04 %

Protein quality

Proportion of animal and marine protein of total protein 90 %
 Proportion of hydrolysed protein 15 %
 Proportion of hydrolysed protein of total protein 44 %
