

APPETITT WEIGHT CONTROL

Complete diet for overweight cats or cats who gain weight easily

Appetitt is a functional cat food enriched with active ingredients derived from Norwegian nature. The various products in our wide assortment have been developed to meet different nutritional needs, so everyone can find a food that's perfectly adapted to their cat.

Appetitt Weight Control has a moderate calorie content that might help control your cat's weight. The food is low in fat but high in the vital omega-3 fatty acids, EPA and DHA in the form of phospholipids from Antarctic krill. Ideal ratio of omega-3 to omega-6 fatty acids and a high content of vitamin E and rosemary for your cat's joints, skin, coat and overall health. Carnitine might contribute to energy and fat metabolism and thus reduce the risk of obesity. Psyllium husk are high in fermentable and water-soluble fibres and contribute to gastrointestinal function. Husk from these seeds have very good water binding ability and swelling properties, so can also contribute to increased satiety.

With the exception of rice, the food is grain free and high in hydrolysed proteins from chicken and salmon. Thus, the food is low in ingredients that can lead to intolerance and allergies. Natural glucosamine and chondroitin from salmon and chicken for joint and bone health. Fructo-oligosaccharides (FOS) from beet fibre support your cat's gastrointestinal health. Contains beta-glucans from yeast for your cat's overall health.

Appetitt Weight Control is also suitable for neutered and sterilised (spayed) cats.

ENERGY CONTENT	
Metabolisable energy per kg (FEDIAF 2021)	4 000 kcal
ANALYTICAL CONSTITUENTS	
Protein	35.0 %
Crude fat	11.0 %
Crude fibre	4.5 %
Dietary fibre	14.0 %
Crude ash	6.9 %
NFE (Nitrogen-free extract -carbohydrates except fibres)	38.3 %
Moisture	4.0 %
MINERALS	
Calcium	1.41 %
Phosphorus	0.99 %
Sodium	0.42 %
Magnesium	0.12 %
TRACE ELEMENTS	
Copper	11.0 mg/kg
Zinc	50.0 mg/kg
Iron	100.0 mg/kg
Iodine	1.5 mg/kg
Manganese	35.0 mg/kg
AMINO ACIDS	
Arginine	2.28 %
Lysine	2.41 %
Methionine	0.73 %
Methionine & Cysteine	0.99 %
Threonine	1.39 %
Taurine	0.58 %
VITAMINS	
Vitamin A	20 000 IU/kg
Vitamin D3	1 200 IU/kg
Vitamin E	200 mg/kg
Vitamin C	200 mg/kg
Thiamine	12 mg/kg
Riboflavin	24 mg/kg
Niacin	150 mg/kg
Pantothenic acid	60 mg/kg
Pyridoxine	30 mg/kg
Cyanocobalamin	0.06 mg/kg
Biotin	1.50 mg/kg
Folic acid	4 mg/kg
Choline	2 000 mg/kg
FATTY ACIDS	
Omega 6/Omega 3	1.7
Omega 3	8.4 g/kg
Omega 6	14.3 g/kg
EPA (C 20:5) + DHA (22:6)	6.4 g/kg
Linoleic acid	1.5 %

Composition

Dried animal protein from chicken, rice, pea starch, hydrolysed animal protein from chicken, potato starch, dried marine protein from fish, lignocellulose, dried beet pulp, hydrolysed marine protein from salmon, animal fat from chicken, dried krill (*Euphausia superba*), fish oil, calcium carbonate, psyllium husk, fructo-oligosaccharides (FOS), mannan-oligosaccharides (MOS), potassium carbonate, beta-glucans from yeast, yucca extract, rosemary.

Feeding guidelines

Appetitt Weight Control can be served with free access according to your cat's appetite. Overweight cats or cats that gain weight can often benefit from having their daily portion divided into 3-4 feedings per day.

The feeding guidelines provides a guide on how much Appetitt Weight Control to feed your cat each day. Food requirements may vary depending on activity level, so keep an eye on your cat's needs and adjust the amount of food accordingly. Always remember to ensure free access to fresh water. The food should be stored in a cool, dry place.

Functional substances

Antioxidants: Vitamin E (α -tocopherol)	180 mg
Amino acids: L-Taurine	1000 mg
Vitamins: L-Carnitine	500 mg
Acidifier: Orthophosphoric acid	175 mg
Beta-glucans	0.04 %

Protein quality

Proportion of animal and marine protein of total protein	89 %
Proportion of hydrolysed protein	15 %
Proportion of hydrolysed protein of total protein	43 %

BODYWEIGHT, KG	GRAM/DAY
1,5-2,5	25-35
2,5-4,5	35-55
4,5-6,5	55-85
6,5-9,0	85-120

100% recyclable packaging. Sorted as plastic
