MAINTENANCE LARGE BREED

Complete diet for adult dogs from 1 year of age over 25 kg

Appetitt is a functional dog food enriched with active ingredients derived from Norwegian nature. Each product is specially adapted to the different nutritional needs of all breeds, so you can always find a food that is tailored exactly to your dog's requirements.

Appetitt Maintenance Large Breed is a complete diet for large breed adult dogs over 1 year of age. The food is adapted for dogs without special needs and with normal activity levels. "Normal activity" is considered as the activity level of dogs that are exercised for 1-2 hours daily without particularly high exertion. This food has highly digestible proteins of animal and marine origin.

With the exception of rice, the food is grain free and high in hydrolysed proteins. Thus, the food is low in ingredients that can lead to intolerance and allergies.

Antarctic krill supports your dog's skin, coat and joints with the essential omega-3 fatty acids, EPA and DHA in the form of phospholipids. Maintenance contains natural glucosamine and chondroitin from salmon and chicken for joints and bones. Natural vitamin E and rosemary, for skin, coat, joints and your dog's overall health. Fructo-oligosaccharides (FOS) from vegetable fibres for your dog's gastrointestinal health, and beta-glucans for general health.

Composition

Rice, pea starch, dried animal protein from chicken, hydrolysed animal protein from chicken (12 %), animal fat from chicken, dried marine protein from fish, dried Antarctic krill (Euphausia superba), hydrolysed marine protein from salmon (6 %), potato starch, dried beet pulp, fish oil, lignocelluloses, calcium carbonate, fructooligosaccharides (FOS), sodium chloride, potassium carbonate, beta-glucans from yeast, rosemary.

Feeding guide

Appetitt Adult Maintenance Large Breed has an energy and nutritional content that meets the requirements of large breed dogs from 1 year of age and with a normal level of activity.

The feeding guide gives the average amount of daily feed related to body weight and age. The portion may vary +/- 20 % depending on each dog's individual requirements for maintaining optimal body weight. Your dog should always have access to fresh drinking water. Store in a dry and cool place.

Functional substances

Antioxidants: Vitamin E (α -tocopherol) 200 mg/kg FOS (fructo-oligosaccharides) 0.2 % Beta-glucans 0.04 %
