APPETITT STERILISED

Complete diet for neutered cats

Appetitt is a functional cat food enriched with active ingredients derived from Norwegian nature. The various products in our wide assortment have been developed to meet different nutritional needs, so everyone can find a food that's perfectly adapted to their cat.

Appetitt Sterilised has an energy and nutritional content adapted for neutered cats. Moderate protein content with high digestibility and biological value reduces the risk of kidney and urinary tract disorders caused by excess nitrogen and high pH in the urine. The food also has a low and adapted mineral content to reduce the risk of urinary stones. Contains carnitine, which might prevent obesity by boosting fat metabolism. Cranberries for the urinary tract. With the exception of rice, the food is grain free and high in hydrolysed proteins. Thus, the food is low in ingredients that can lead to intolerance and allergies. Natural glucosamine and chondroitin from salmon and chicken for joint and bone health.

Appetitt Sterilised also contains Antarctic krill, providing your cat with the vital omega-3 fatty acids, EPA and DHA in the form of phospholipids. Ideal ratio of omega-3/omega-6 fatty acids and a high content of natural antioxidants vitamin E and rosemary for your cat's joints, skin, coat and overall health. Fructo-oligosaccharides (FOS) from beet fibre for your cat's gastrointestinal health. Contains beta-glucans from yeast for your cat's overall health.

Composition

Dried animal protein from chicken, rice, pea starch, hydrolysed animal protein from chicken, potato starch, dried marine protein from fish, animal fat from chicken, lignocellulose, hydrolysed marine protein from salmon, dried beet pulp, dried krill (Euphausia superba), fish oil, calcium carbonate, cranberries, fructo-oligosaccharides (FOS), sodium chloride, potassium carbonate, beta-glucans from yeast, yucca extract, rosemary.

Feeding guidelines

Appetitt Sterilised can be served with free access according to your cat's appetite. Overweight cats or cats with diminished appetite can often benefit from having their daily portion divided into 3-4 feedings per day.

The feeding guidelines provides a guide on how much Appetitt Sterilised to feed your cat each day. Food requirements may vary depending on activity level, so keep an eye on your cat's needs and adjust the amount of food accordingly. Always remember to ensure free access to fresh water. The food should be stored in a cool, dry place.

Functional substances
