APPETITT SENIOR

Complete diet for aging cats

Appetitt is a functional cat food enriched with active ingredients derived from Norwegian nature. The various products in our wide assortment have been developed to meet different nutritional needs, so everyone can find a food that's perfectly adapted to their cat.

Appetitt Senior has a moderate protein content that can reduce the risk of protein excess, which can cause digestive disorders and put unnecessary strain on the kidneys and urinary tract. Appetitt Senior contains carnitine, which might boosts energy and fat metabolism and lower the risk of obesity. With the exception of rice, the food is grain free and high in hydrolysed proteins. Thus, the food is low in ingredients that can lead to intolerance and allergies. Natural glucosamine and chondroitin from salmon and chicken for joint and bone health.

Appetitt Senior also contains Antarctic krill, providing your cat with the vital omega-3 fatty acids, EPA and DHA in the form of phospholipids. Ideal ratio of omega-3/omega-6 fatty acids and a high content of natural antioxidants vitamin E and rosemary for your cat's joints, skin, coat and overall health. Fructo-oligosaccharides (FOS) from beet fibre for your cat's gastrointestinal health. Contains beta-glucans from yeast for your cat's overall health.

Appetitt Senior is also suitable for neutered and sterilised (spayed) cats.

Composition

Dried animal protein from chicken, pea starch, rice, hydrolysed animal protein from chicken, potato starch, dried marine protein from fish, animal fat from chicken, dried krill (Euphausia superba), hydrolysed marine protein from salmon, lignocellulose, dried beet pulp, fish oil, calcium carbonate, fructo-oligosaccharides (FOS), mannanoligosaccharides (MOS), beta-glucans from yeast, yucca extract, rosemary.

Feeding guidelines

Appetitt Senior can be served with free access according to your cat's appetite. Overweight cats, cats with diminished appetite or picky eaters can often benefit from having their daily portion divided into 3-4 feedings per day.

The feeding guidelines provides a guide on how much Appetitt Senior to feed your cat each day. Food requirements may vary depending on activity level, so keep an eye on your cat's needs and adjust the amount of food accordingly. Always remember to ensure free access to fresh water. The food should be stored in a cool, dry place.

Functional substances

Antioxidants: Vitamin E (α-tocopherol)	180 mg
Amino acids: L-Taurine	1000 mg
Vitamins: L-Carnitine	500 mg
Acidifier: Orthophosphoric acid	500 mg
Beta-glucans	0.04 %

Protein quality

Proportion of animal and
marine protein of total protein 89 %
Proportion of hydrolysed protein 14 %
Proportion of hydrolysed protein of total protein 43 %

	BODYWEIGHT, KG	GRAM/DAY
	1,5-2,5	30-45
	2,5-4,5	40-60
	4,5-6,5	60-90
	6.5-9.0	80-130
